THE COMPANY

RAYMOND FEGHALI CO & R.T.F for Trade and Industry are two of the leading companies in the market. Established by their chairman, Mr. Raymond Feghali, in 1972, they specialize in selling different industrial products from manual transmission to the most developed electro-mechanical and automated parts.

The company's first priorities are to constantly improve and develop the market along with satisfying customers by dealing with the most important suppliers all over the world.

The company's main activity is using their expertise to provide innovative & effective solutions to the most complex mechanical & electronic projects through a well qualified team that can develop, improve and satisfy the local and frontier customers by acquiring industrial parts with high quality and competitive prices in addition to the after sales support in industrial projects and technical reparations.
